

^{24}N

The instability of ^{24}N was demonstrated by Pougheon et al. in 1986 ([1986Po13](#)). The first observation of an unbound resonance of ^{24}N was reported in a thesis in 2018 ([2018DeZZ](#)).

[1986Po13](#) F. Pougheon, D. Guillemaud-Mueller, E. Quiniou, M. G. Saint Laurent *et al.*, *Europhys. Lett.* **2**, 505 (1986).

[2018DeZZ](#) Q. Deshayes, Thesis, Universite de Caen, Normandie (2018).
