

^{25}N

The instability of ^{25}N was demonstrated by Sakurai et al. in 1999 ([1999Sa06](#)). The first observation of an unbound resonance of ^{25}N was reported in a thesis in 2018 ([2018DeZZ](#)).

[1999Sa06](#) H. Sakurai, S. M. Lukyanov, M. Notani, N. Aoi *et al.*, Phys. Lett. B **448**, 180 (1999).

[2018DeZZ](#) Q. Deshayes, Thesis, Universite de Caen, Normandie (2018).
