

$^{240}\text{Np-1}$

Isomerism was first established in ^{240}Np by R.M.Lessler and M.C.Michel in 1960 at Lawrence Berkeley National Laboratory, Berkeley, California ([1960Le03](#)). The 7.22 m isomeric level by itself had been measured earlier ().

[1960Le03](#) R. M. Lessler and M. C. Michel, Phys. Rev. **118**, 263 (1960).
