

$^{52}\text{Cr}(\text{He},\alpha)$ **1978Fo34**

Type	Author	Citation	Literature Cutoff Date
Full Evaluation	Wang Jimin and Huang Xiaolong	NDS 144, 1 (2017)	1-Mar-2016

E=25 MeV; FWHM=20-25 keV, measured $\sigma(E\alpha,\theta)$, analyzed with DWBA and coupled-reaction channel model.

[†] Obscured by a contaminant peak. Apparently seen (see authors' text), but no $\sigma(\theta)$ could be determined.

[‡] Doublet.

[#] Contains a contaminant.

[@] From DWBA analysis of measured $\sigma(\theta)$.
