# Workshop on Neutron Covariance Data

Port Jefferson, June 24-27, 2008

---

## Objectives

- Covariance methodology → agree on procedures, identify issues
- Covariance evaluations → produce good examples
- User perspective → understand user requirements

## Organizers

- Organizing Committee: P. Oblozinsky, M. Herman, A. Sonzogni
- Program Committee: To be established

## Dates and Venue

- Start Tuesday morning (June 24), end Friday noon (June 27)
- Port Jefferson (~1h drive from JFK Airport)
- Danford's Hotel, conference facility for 90 people
- Accommodation for \$131 governmental rate, also nearby hotels

## Fee

- Workshop fee ~\$250 is expected

# Workshop on Neutron Covariance Data

Port Jefferson, June 24-27, 2008

---

## Attendees

- ~ 60 in total expected (data producers, data users)
- ~ 30 US, 15 Europe, 10 Asia, 5 others

## Agenda

- Covariance methodology: Status, solutions, issues
  - Thermal and resonance region
  - Fast neutron region
  - Covariances from experiments
  - Actinides (nubars), light nuclei
- Evaluations
- User perspective

## Format

- ~ 30 talks (30' each including discussion), ~ 30 posters
- Half a day foreseen for general discussion
- Proceedings in Nuclear Data Sheets (Dec 2008), refereed papers only!
