Brookhaven National Laboratory  
Upton, NY 11973

# Communications regarding Published Work

The following **communications**, in any form and shape, from the authors of a **published work** could be adopted without reservations:

- a. Clarification of data inconsistencies
- b. Details of data and/or additional data in support of journal publications.
- c. Preprints of accepted for publication.

# Unpublished Works -1

The following references should be treated like the primary references, irrespective of their treatment in NSR:

- a. **Theses** (from a well-known accredited University). Evaluators need to judge quality of the theses from less-known institutions.
  
- b. **Review articles** in books: secondary reference codes in NSR

# Unpublished Works -2

1. All conference abstracts
2. unpublished information received from experimenters

Treat with caution:

Adopted only if the only source of information and not in  
ENSDF – comment the source  
otherwise,  
Give only as comments.
