European Participation

Effort by:

Alan Nichols

J. Tuli

D. Balabanski

Guidance from:

P. Oblozinsky

F. Kondev

European Participation

Letters to various European Laboratories
Intent to hold meeting in Vienna

Contacted European Union – Brussels

European Expert Committee, NuPECC,
(Brian Fulton, U of York, Chairman)

Audi's precipitous action

European Participation

GSI, Christoph Scheidenberger, member NuPECC, interested in Atomic Masses

Yuri Litvinov attended NSDD meeting At St Petersburg

Dimiter Balabanski (NSDD) approached NuPECC.

Item addressed and supported by NuPECC

European Participation

NuPECC agrees for NSDD awareness article in their journal Nuclear News

Brian/Christoph support an invited talk for me at Eurisol-Eurons Joint Town Meeting at Helsinki

European Participation

Talk: NSDD, its product, its content, its use, users, contributors, who pays for it

Well received.

Some discussion with Brian and Christoph

NuPECC convinced about the need for European participation.

A new European committee (NuPNET),
Chair: Sydney Gales, GANIL, of national funding agencies, recently created

European Participation

Brian/Chritoph told me that key person is now Sydney Gales.

Alan and I requested Piet Van Isacker, GANIL to bring up the issue with Sydney Gales.

Sydney seems sympathetic.

He suggested that it could be further strengthened if Dennis Kovar, Chairing OECD meeting later this year, puts this as an agenda item.

European Participation

There is considerable progress
Europe is convinced of the need to participate.
Need interested groups to apply for funding to NuPNET
D. Balabanski seems to create an interested group
Others?
